

**PIVOT3 DEMONSTRATES HIGH-DEFINITION VIDEO STORAGE SOLUTION  
FOR PUBLIC SAFETY ORGANIZATIONS AT IACP CONFERENCE AND  
EXHIBITION 2007**

Spring, Texas –October 11, 2007 – Pivot3 Inc, the inventor of high-definition storage based on distributed RAID, will exhibit and demonstrate its high-definition video storage solution at the 114<sup>th</sup> Annual IACP Conference and Exposition, the law enforcement education and technology exposition, in New Orleans, La., October 13-17, 2007. The Pivot3 product demonstrations will take place at booth #4717 along with partner solutions from Insight Video Net, Petards, and Lenel, showing the interoperability, ease of use, increased scalability and high performance of high-definition video storage solutions in today’s multi-vendor physical security environments.

“We are here to share our recent experiences and success stories in public safety with the show attendees,” said Jeffrey Bell, Pivot3 vice president marketing. “Today’s megapixel, high-definition video surveillance applications can result in increased storage capacity and performance requirements. Some large city police departments in the U.S. are already implementing the latest high-definition video storage from Pivot3 in order to support this growth. The Pivot3 RAIGE™ (RAID Across Independent Gigabit Ethernet) architecture helps organizations store twice the video while supporting up to five times the data streams of traditional high-availability modular storage systems. Also, storage infrastructure costs go down as much as 50 percent while scalability and availability increase.”

Visit Pivot3 at booth #4717 to learn how its storage solutions can help provide secure and scalable video storage for municipalities around the country.

### **About Pivot3**

Pivot3 has developed the first successful implementation of distributed data protection utilizing software-based virtual RAID controllers, as well as industry-standard server and networking technology. The Pivot3 block-based infrastructure virtualization solutions, targeting various data-intensive applications such as video surveillance, reduce costs by up to 50 percent and deliver up to five times the performance, with superior data protection. With several patents pending, the company boasts strong intellectual property and is backed by Lightspeed Venture Partners and InterWest Partners. For more information, please call 1-877-5-PIVOT3 or visit the company's website at [www.pivot3.com](http://www.pivot3.com)
