

PIVOT3 TO SHOWCASE HIGH-DEFINITION STORAGE SOLUTION AT ISC WEST 2008

Houston, Texas – March 31, 2008 – Pivot3 Inc, the inventor of High-Definition Storage™, will exhibit the Pivot3 High-Definition Storage™ solution at ISC West 2008, Booth #5052, at the Sands Expo and Convention Center, Las Vegas, Nev., April 2-4, 2008. Attendees visiting the Pivot3 booth will be able to see demonstrations of the latest high-definition storage, supporting a variety of cameras and video surveillance applications, and reducing storage infrastructure costs by as much as 50 percent.

Optimized for large-scale surveillance deployments and implemented by various municipalities and casinos throughout the country, the Pivot3 High-Definition Storage System increases data security and helps organizations store twice the video while supporting up to sixteen times the data streams of traditional modular storage systems. The Pivot3 IP-based system adds a higher level of data protection across multiple networked storage nodes, called Databanks, which are built using industry-standard x86 servers and disk drives, and are connected via common Gigabit Ethernet. Databanks are added to cost-effectively scale recording capacity and camera support.

The company has recently announced the Pivot3 High-Definition Storage™ Alliance program, with more than 30 industry-leading vendors becoming members of the program. The alliance program is designed to help users simplify the deployment and speed the adoption of open video surveillance systems, using high-capacity, high-bandwidth Pivot3 High-Definition Storage.

For more information and to see a live demonstration, visit Pivot3 at booth #5052.

ISC West is sponsored by the Security Industry Association (SIA) and endorsed by the California Alarm Association (CAA) and the NBFAA. For information on ISC West 2008, visit <http://www.iscwest.com>.

About Pivot3

Pivot3 invented High-Definition Storage™, delivering more than sixteen times the performance at half the cost of traditional solutions, to uniquely solve the storage needs of bandwidth and capacity-intensive environments such as video surveillance. The company has raised \$46 million in private financing to deliver leading-edge storage technology to its growing customer base in public safety, gaming, education and federal markets. For more information please visit www.pivot3.com or call 877-574-8683.
