

PIVOT3 WINS NETWORK PRODUCTS GUIDE 2009 INNOVATION AWARD

Pivot3 Serverless Computing™ Continues to Gain Recognition as an On-Demand Infrastructure Platform

Palo Alto, Calif. – May 27, 2009 – Pivot3®, Inc, the market leader in High-Definition Storage™, announced today that Network Products Guide, industry’s leading publication on information technologies and solutions, has named Pivot3 Serverless Computing™ a winner of the 2009 Product Innovation Award. This annual award recognizes and honors worldwide vendors with innovative and ground-breaking products that are bringing essential and incremental changes, and are setting the bar higher in all areas of information technology.

Pivot3 Serverless Computing is the first and only clustered storage solution that simultaneously runs server applications on IP SAN hardware, resulting in significant savings in power, cooling, rack space and cost for the customers’ environments. To read more about this product innovation, please visit www.networkproductsguide.com/innovations/.

“Innovation is clearly an important factor for greater success and has the most impact on staying competitive,” said Rake Narang, editor-in-chief of Network Products Guide. “Innovative products such as Pivot3 Serverless Computing are bringing significant improvements to today’s IT environments.”

“This second Network Products Guide award is rewarding recognition of our innovative Serverless Computing platform and our commercial realization of the technology,” said Lee Caswell, founder and chief marketing officer at Pivot3. “The quick adoption of Serverless Computing in the most demanding, highly regulated markets is further proof of the compelling green benefits and major cost savings that Pivot3 customers can realize today.”

About Network Products Guide Awards

Network Products Guide is a media sponsor of Interop and Technosium Executive Alliance Forums engaging Chief Information Officers (CIOs) and Chief Information Security Officers (CISOs). As industry's leading technology research and advisory publication, it plays a vital role in keeping decision makers and end-users informed of the choices they can make in all areas of information technology. You will discover a wealth of information and tools in this guide including the best products and services, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals. The guide follows conscientious research methodologies developed and enhanced by industry experts. To learn more, visit www.networkproductsguide.com

About Pivot3

Pivot3 is the fastest-growing surveillance storage company, with its award-winning products widely deployed in the gaming, homeland security, public safety, education and transportation markets. The company's innovative RAIGE® architecture is ideally suited for video applications, and offers advanced availability, massive bandwidth, and large scaling of capacity supported by an intuitive interface for ease-of-use. The Pivot3 core product lines are the RAIGE Array™, a clustered iSCSI SAN, and Serverless Computing™, the industry's first combined NVR/SAN product, which consolidates NVR servers into the IP SAN platform for concrete cost, power and cooling savings.
