

**PIVOT3® TO DEMONSTRATE SERVERLESS COMPUTING AT WORLD GAMING  
PROTECTION 2009**

**Pivot3 Adds Support for NICE Systems; Signs North America Video as a Reseller**

**Palo Alto, Calif.** – March 2, 2009 – Pivot3®, Inc, the market leader in High-Definition Storage™, today announced the company’s participation at the World Game Protection Conference, Las Vegas, Nev., March 1-3, 2009. At this international summit dedicated to casino game protection, attendees visiting the Pivot3 booth #19 will be able to see the Pivot3 Serverless Computing™ solution, being demonstrated with partner solutions from Genetec and NICE Systems. Pivot3 is also announcing a reseller agreement with North American Video (NAV).

“We are responding to customer demand for open-system solutions such as Pivot3 Serverless Computing,” said Cyndi Freschi, president of North American Video. “This new relationship with Pivot3 expands our product portfolio, so that the latest platforms are available to our customers.”

“We continue to add new partners based on the strong customer demand we are seeing today,” said Lee Caswell, founder and chief marketing officer at Pivot3. “NICE Systems is an important player in many vertical markets, and the combination of NICE and Pivot3 is a positive step for many customers. It is also exciting to start this new relationship with North American Video, because of their strong integration capabilities and their long-standing customer relationships. The green benefits and cost-savings of Serverless Computing will help us successfully delight customers together.”

Pivot3 Serverless Computing is the industry’s first clustered storage solution that simultaneously runs NVR applications on IP SAN hardware. Virtual NVRs eliminate the need for standalone

physical servers and significantly reduce the cost, power, and space in surveillance installations. Pivot3 has recently announced a Serverless Computing installation at three Choctaw casinos: the Stringtown, McAlester, and Grant.

### **About Pivot3**

Pivot3 is the fastest-growing surveillance storage company, with its award-winning products widely deployed in the gaming, homeland security, public safety, education and transportation markets. The company's innovative and patent-pending RAIGE® architecture offers advanced availability, massive bandwidth for video applications, large scaling of capacity, and an intuitive interface for ease of use. The Pivot3 core product lines are High-Definition Storage™, a clustered iSCSI SAN, and Serverless Computing™, the industry's first combined NVR/SAN product, which consolidates NVR servers into the High-Definition Storage IP SAN platform for real savings of cost, power and cooling.
