

PIVOT3 TO SHOWCASE HIGH-DEFINITION STORAGE SOLUTION AT INDIAN GAMING 2008

Houston, Texas – April 17, 2008 – Pivot3 Inc, the inventor of High-Definition Storage™, will exhibit the award winning Pivot3 High-Definition Storage™ solution at Indian Gaming 2008, the 17th annual meeting and trade show of the National Indian Gaming Association (NIGA), taking place at the San Diego Convention Center on April 20-23, 2008. Pivot3 will be demonstrating the company's High-Definition Storage, known to cut storage infrastructure costs by as much as 50 percent even in the most complex video surveillance implementations, with various brands of cameras and video surveillance applications.

Implemented by various casinos throughout the country, the Pivot3 High-Definition Storage System increases data security and helps organizations store twice the video while supporting up to sixteen times the data streams of traditional modular storage systems. The Pivot3 IP-based system adds a higher level of data protection across multiple networked storage nodes, called Databanks, which are built using industry-standard x86 servers and disk drives, and are connected via common Gigabit Ethernet.

For more information and to see a live demonstration, visit Pivot3 at booth #1144.

About Pivot3

Pivot3 invented its award winning High-Definition Storage™, delivering more than sixteen times the performance at half the cost of traditional solutions, to uniquely solve the storage needs of bandwidth and capacity-intensive environments such as video surveillance. The company has raised \$46 million in private financing to deliver leading-edge storage technology to its growing customer base in public safety, gaming, education

and federal markets. For more information please visit www.pivot3.com or call 877-574-8683.
