

PIVOT3 DEMONSTRATES HIGH-DEFINITION VIDEO STORAGE SOLUTION AT NATIONAL CONFERENCE ON JUVENILE JUSTICE

ST. LOUIS, MO – March 10, 2008 – Pivot3 Inc, the inventor of high-definition storage based on distributed RAID, today announced the company's participation at the 35th Annual National Conference on Juvenile Justice, St. Louis, Mo., March 9-12, 2008. At this conference targeting professionals in the field of juvenile justice, attendees visiting the Pivot3 booth #610 will learn how Pivot3 High-Definition Storage Systems, supporting a variety of cameras and video surveillance applications, are reducing storage infrastructure costs by as much as 50 percent.

Implemented by various municipalities throughout the country, the megapixel-optimized Pivot3 High-Definition Storage System increases data security, while supporting up to five times the data streams of traditional video storage options. The Pivot3 IP-based system adds a higher level of data protection across multiple networked storage nodes, called Databanks, which are built using industry-standard x86 servers and disk drives, and are connected via common Gigabit Ethernet.

For more information, visit Pivot3 at booth #610.

About Pivot3

The Pivot3 block-based infrastructure virtualization solutions, targeting various data-intensive applications such as video surveillance, reduce costs by up to 50 percent and deliver up to five times the performance, with superior data protection. With several patents pending, the company boasts strong intellectual property and is backed by Lightspeed Venture Partners, InterWest Partners, Mesirow Financial Capital Partners IX, and Silver Creek Ventures.
